DETAILED ACTION

1.0 The application of Claton F. Clevenger entitled "COMMUNICATION SYSTEM FOR DEDICATED AND SWITCHED COMMUNICATIONS" which was filed on 10/18/2000 and amended on 7/8/04 was examined. Claims 1-34 are pending.

Examiner's Amendment

2.0 Referring to Claim 25, Please note that claim 25 currently depends upon itself. Delete the dependent claim reference "claim 25" and replace with dependent claim reference to "claim 24" so that it no longer depends upon itself.

ALLOWABLE SUBJECT MATTER

3.0 The following is an examiner's statement of reasons for allowance:

The present invention is directed to a dedicated or private network processing system which handles call processing in which a first call set up message and first identifier and a second call set up message and second identifier are utilized.

The closest prior art in Gardner which is U.S. Patent No.: 6,704,327. Gardner discloses a system which handles call processing associated with a first message and assigns a first identifier. Since the applicant's filing date was after November 29, 1999 and the closest prior art was commonly owned by the assignee at the time the invention was made a 103 rejection is inappropriate; consequently, this application is allowable.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."
